STAMBEREUS AND STUTTEREUS

A. Visit to an Institute Where Defects of Speec Are Thoroughly Corrected From the New York Times.

Recently the writer was a guest of Prof. I R. Aldrich at his institute for the correction and cure of stammering and other vocal defects. His luxuriously furnished rooms are located at No. 9 West Fourteenth street, where, although surrounded by a group of speech sufferers and very busy, he received his visitor hospitably, and in response t questions said in aubstance :

Stammerers as a class have been badly misunderstood. The world has considere their infirmity unnecessary and a mark of intellectual inferiority. My experience with several fundired pupils has proved to me that speech sufferers are as intelligent and quick-witted as any class of persons what-ever, and certainly some of the brightest m-n have been sillicted with stammering. Some theologians assert that St. Paul was a stammerer. Charles Lamb was an inveterate stutterer. The sufferings of these unfortu-nate persons are real, and, without outside aid, not one in a hundred could possibly cor-rect their defect. The reason that these neryous habits of apeech are so difficult to cor rect is because we all learn to speak from imitation, and not one educated person in a hundred can intelligently expisit the mechanical structure of a single syllable. Therefore stammering or stuttering can be said to be a defect of this faculty, the mechanical and physical part of which we exercise unconsciously. To correct this defect my pupils are taught to make speech a conscious effort, and to a certain extent to keep the mind upon the physical act put forth in respiration, vocalization, and articulaseep the minu upon the physical set put forth in respiration, vocalization, and articula-tion. The rules of speech which they are taught effectually and at once counteract the tendency to spasmodic utterance. At first they are not permitted to speak to any one but myself. I sually after six or seven days' practice with me they are able to put the rules into use with considerable expression and naturalness. Then they are allowed to converse to a limited extent with others. To

make the cure permanent and perfect new habits of speech must be acquired."
"How long have you been engaged in this "About nine years; seven in this city. In 1880 I came to New York a stranger, having had but one pupil from this city in my Utica school. One of the first cases I had here was school. One of the first cases I had here was a young man in whom the late Peter Cooper was interested. He was permanently cured and Mr. Cooper gave me an unqualified indorsement of my method with permission to publish the same. Within three months I had all the pupils I could attend to and have been busy ever since."

"Are all of your pupils cured ?"

"Yes, except in rare cases when there is some organic defect or a tack of a gesonable smount of application and determination.

smount of application and determination.

All, however, are greatly benefited."

"Who sends you pupils?"

"A great many are sent to me by physicians who make a specialty of nervous diseases."

Washington a Bad Speller. George Washington was above the neces city of spelling correctly. But it is interest ing to observe that he defied orthography with the same calm courage with which he opposed the troops of England. He once wrote to the congregation of the Dutch Reformed church of Schenectady: "I sincearly thank you for your congratulations on my arrival in this place. Whilst I join in adorting that now supreem Heing, to whom alone can be attrebuted the signel successes of our arms, I cannot but express my grati-

The Rapidity of Progress Toward Bealth, Even when a good remedy for disease is so-lected, depends in some measure upon the manner in which it is taken. Irregular, inter-rupted doses can afferd no init tost of the effiacy of any medicine, however salutary. Taken In proper does at prescribed intervals, a reliable curative will effect the object of its use. Among remedies which, systematically and persistently used, accomplish thorough and lasting cures, and prevents the recurrence of periodic lisease. Hostetter's Stomach Bitters ranks spe clairs of the cases of dyspepsia, debility, theumatism, fever and sgue, liver complaint, inactivity of the kidneys and bladder, constipation, and other organic instalties, it is a tried remedy, to which the medical brotherhood have lent their professional sanction, and which, as a tenic, alterative and household disorders of the stomach, liver and bowels, has an unbounded popularity.

HOOD'S SARSAPARILLA.

Back and Shoulders Are the parts usually attacked by rhoumatism; and the joints at the knees, ankles, hips and wrists are also sometimes affected. The cause of thoumatism is lactic acid circuisting with the blood, which attacks the joints and causes the pains and aches of the disease. Hood's Satsapa-rilla purifies and enriches the blood, and has proven a wonderful remedy for rheumatism. COULD HARDLY WALK.

"I was troubled very much with the unatisure in my hips, ankles and wrists; it tact, I could hardly walk, and was confued to my bed a good deal of my time. I was also very billous and suffered severely. I was recommended to try Hood's Sarsaparilla, which I did. I have taken four bottles and am well. I gladly recommend Hood's Sarsaparilla."—W. W. WOOD, Bloomington, III.

RHEUMATIC FEVER.

"Eight years ago I had inflammatory rheumatism, being confined to the bed three months. Last year I was laid up six weeks with rheumatic fever. A short time ago, I felt pains all over my body and thought I was in for it sgain. I then decided to try Hood's Sarasparilia. It has done me so much good that I must say I made a good investment of one dollar in medicine for the first time. It has driven out the rheumatism and improved my appetite so much that in y and improved my appetite so much that my boarding mistress says I must keep it locked up or she will be obliged to raise my board with every other boarder that takes Hood's Sarsapa-rilla. —THOMAS BURKELL, No. 29 Tillary

A QUESTION ABOUT

Brown's Iron Bitters

ANSWERED.

The question has probably been asked thou sands of times. "How can Brown's Iron Bitters cure everything." Well, it doesn't. But it doesn cure any disease for which a reputable physician would prescribe IRON. Physicians recognize from as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of fron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BEOWN'S IRON BITTERS no perfectly satisfactory combination had ever been found. BROWN'S IRON BITTERS does not injure the teeth, cause head-ache, or produce constipation—all other medicines do. BROWN'S IRON BITTERS cures Indigestion, Bitiousness, Weakness, Dyspepia, Maiaria, Chilis and Fevers, Tired Feeling, General Deblity, Pain in the Side, Back or Mimbs, Headache and Neuralsia—for all these allments from is prescribed daily. BROWN'S IRON BITTERS, however, does not cure in a minute, Like all other thorough medicines, it acts slowly. When taken by smen the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustance is supplied for the child. Remember Brown's Iron Bitters is the ONLY Iron medicine that is not injurious. Physicians and druggistar recommend if.
